

Less than a month ago I signed up for 'don't call list' and now I am soooo happy. Before signing up for this, I used to get about 8-10 calls a day from tele marketors while my personal calls wouldn't even be 1-2 a day. And also, those calls disconnect me off from the net and cause so much nuisance. On top, over 70% of the telemarketors are sooooo rude when they find out you are not interested.

So - please let the don't call law in NJ as it is. Or make it even better.

Thank you
